

Volvo 85110616 Hub Bearing and Seal Kit

We are pleased to advise that FAG have just introduced a new **complete repair insert unit** to replace the insert unit with separate ZF seal kit.

The complete unit is a lot faster and easier to fit as you **do not** have to grease and assemble the seal kit (85110615) yourself.

OE vehicle equipment & popular aftermarket solution

Insert Unit 803750B

+
Combination of ABS ring & shaft seal
(one piece)

Volvo 85110616
ZF 4472 298 147

Schaeffler Aftermarket solution: Repair Insert Unit incl. ABS ring

Due to the different bearing designs, the original combination of ABS ring & shaft seal can no longer be used. The ABS ring is supplied with the RIU and no additional seals are required because the RIU takes over the sealing function.

To highlight that, there is a new non-verbal installation note included and a service info published.

This RIU can replace Volvo 85110616, Volvo 85110615, Volvo 85111937, ZF 4472 298 147 & ZF 4472 298 146
